1 Amazon Prime Memberships

Amazon Prime offers a variety of membership plans with benefits such as free shipping, streaming services, and exclusive deals. Below are the available plans and their prices.

1.1 Standard Prime Membership

- **Annual Plan:** \$139 per year
 - Saves approximately \$40 compared to the monthly plan.
 - Includes free two-day, one-day, or same-day shipping on eligible items, Prime Video, Amazon Music Prime, Prime Reading, and more.
- **Monthly Plan:** \$14.99 per month
 - Same benefits as the annual plan, but with flexible monthly billing.
- **Free Trial:** 30-day free trial for new subscribers or those who haven't been Prime members in the last 12 months.
 - Provides full access to Prime benefits, including Prime Day deals.

1.2 Prime Access

- **Price:** \$6.99 per month
 - Discounted plan for qualifying government assistance recipients (e.g., SNAP, Medicaid, TANF).
 - Offers all benefits of a standard Prime membership.
 - Includes a 30-day free trial.

1.3 Prime for Young Adults (formerly Prime Student)

- **Annual Plan:** \$69 per year
 - For adults aged 18-24 or students with a valid school email address.
 - Includes a 6-month free trial, followed by a discounted rate of \$69/year or \$7.49/month.
 - Provides all standard Prime benefits.

1.4 Prime Video (Standalone)

- **Price:** \$8.99 per month
 - Access to Prime Video streaming with ads.
 - Does not include shipping or other Prime benefits.
- **Ad-Free Add-On:** \$2.99 per month
 - Removes ads and adds features like Dolby Atmos and Dolby Vision for Prime Video.

1.5 Additional Prime Benefits

- **Grubhub+:** Free with Prime membership (valued at \$120/year).
 - Includes \$0 delivery fees on eligible orders, lower service fees, and 5% credit back on pickup orders.
- **Amazon Music Unlimited:** \$10.99 per month for Prime members (\$9.99/month for a single-device plan).
 - Offers on-demand music streaming, with a 4-month free trial for Prime members.
- **Amazon One Medical:** \$69 per year for Prime members (discounted from \$99).
 - Provides in-person and virtual primary care.
- **Gas Savings:** \$0.50 per gallon at participating BP, Amoco, and ampm stations (linked via Earnify app).

2 Amazon Web Services (AWS) Pricing Models

AWS offers a variety of pricing models for its cloud computing services, including compute, storage, and machine learning services. Pricing is flexible and depends on usage, with options for cost optimization.

2.1 Pay-as-You-Go

- **Description:** Pay only for the services used, billed per second or per hour, with no long-term commitment.
- **Example Costs:**
 - **Amazon EC2 (Compute):** Billed per second (minimum 60 seconds) for instances. Prices vary by instance type and region (e.g., t3.micro instance ~\$0.0104/hour in US East).
 - **Amazon S3 (Storage):** Tiered pricing, e.g., \$0.023 per GB for the first 50 TB/month in US East.
 - Data transfer IN is free; data transfer OUT is tiered (e.g., \$0.09 per GB for the first 10 TB/month).
- **Use Case:** Ideal for variable workloads or testing services.

2.2 Savings Plans

- **Description:** Commit to a specific usage amount (measured in \$/hour) for 1 or 3 years for discounts up to 72% compared to On-Demand pricing.
- **Example:** AWS Compute Savings Plan for \$10/hour commitment over 3 years can reduce EC2 costs significantly.
- **Use Case:** Suitable for predictable, long-term workloads.

2.3 Reserved Instances (RIs)

- **Description:** Reserve compute capacity for 1 or 3 years for discounts of 30-72% compared to On-Demand.
- **Example:** A 3-year Standard RI for an m5.large instance might cost ~\$0.064/hour (vs. \$0.096/hour On-Demand).
- **Use Case:** Best for steady-state applications like databases.

2.4 Spot Instances

- **Description:** Use spare EC2 capacity at discounts up to 90% compared to On-Demand.
- **Example:** Spot price for a t3.medium instance might be ~\$0.012/hour (vs. \$0.0416/hour On-Demand).
- **Use Case:** Ideal for fault-tolerant, flexible workloads like batch processing.

2.5 Dedicated Hosts

- **Description:** Rent physical EC2 servers for private use, with pricing based on instance type and duration.
- **Example:** A Dedicated Host for m5 instances might cost ~\$1,000/month, depending on configuration.
- **Use Case:** Required for specific software licensing or compliance needs.

2.6 Free Tier

- **12-Month Free Tier:** Available for new AWS customers, includes 750 hours/month of EC2 t2.micro or t3.micro instances, 5 GB of S3 storage, and more.
- **Always Free:** Limited services (e.g., 25 GB of DynamoDB storage) available indefinitely.
- **Use Case:** Testing and small-scale projects.

2.7 AWS Support Plans

- **Developer:** Starts at \$29/month, based on AWS charges.
- **Business:** Percentage of monthly AWS charges (e.g., 10% for \$0-\$10,000).
- **Enterprise On-Ramp:** Higher tier, includes AWS Countdown Premium for \$10,000/month.
- **Enterprise:** Custom pricing, includes Incident Detection and Response (minimum \$7,000/month or 2% of AWS charges).
- **Note:** Billed monthly, with a minimum 30-day commitment.

3 Amazon Seller Plans

Amazon offers two plans for sellers on its marketplace, with additional fees for optional services like Fulfillment by Amazon (FBA).

3.1 Individual Plan

- **Price:** 0.99 per unit sold (excluding VAT).
- **Features:** No monthly subscription fee; suitable for low-volume sellers (fewer than 40 units/month).
- **Shipping:** Uses Amazon's set shipping rates, which may not cover full shipping costs.
- **Referral Fees:** 815% of the total sales price (item price + shipping + gift wrap), depending on the product category.
 - Example: 15% for items up to \$100, 8% for portions above \$100 in some categories.
- **Additional Fees:** \$5 per textbook rental; \$0.005 per eligible listing for over 100,000 unsold listings after 12 months.

3.2 Professional Plan

- **Price:** 39 per month (excluding VAT), regardless of units sold.
- **Features:** Access to premium tools like sponsored ads, sales analytics, and inventory management.
- **Shipping:** Sellers can set their own shipping rates (except for media products).
- **Referral Fees:** Same as Individual Plan (815% per category).
- **Incentives:** Up to 47,250 in potential incentives for new sellers.

3.3 Fulfillment by Amazon (FBA) Fees

- **Fulfillment Fees:** Per unit, based on size and weight.
 - Example: Small standard items start at ~\$2.50/unit; large standard items at ~\$4.50/unit.
- **Storage Fees:** Based on average daily stock volume (cubic meters).
 - Example: 0.500.70 per cubic meter/month (higher from October/December).
- **Multi-Channel Fulfillment (MCF):** For non-Amazon orders, fees start at \$5.35/unit for small standard items.

3.4 Other Seller Fees

- **Closing Fee:** \$1.80 per media item sold.
- **Refund Administration Fee:** \$5 or 20% of the referral fee (whichever is less) for refunds.
- **Optional Services:** Costs for advertising or premium account services vary.

4 Notes

- **AWS Pricing Calculator:** Use AWS's online tool to estimate costs for specific services and usage scenarios.
- **Prime Membership in India:** Annual plan at 1499, with Pay on Delivery option.
- **Tax Considerations:** Prime memberships may incur sales tax in some regions; AWS Support fees exclude certain services (e.g., AWS Marketplace).
- **Cancellations:** Prime memberships can be canceled anytime; AWS Support requires a 30-day minimum commitment.
