

# Amazon Jobs & Positions — Availability and Requirements

Comprehensive snapshot (focused on Saudi Arabia & UAE) — As of August 18, 2025

This report compiles current role categories, example openings, typical requirements, and application pathways at Amazon (including AWS and Hourly roles).

## How to use this document

Use Section 2 for a region-by-region list of live role categories and current examples. Section 3 details common requirements by job family. Section 4 explains how to apply. All items are illustrative and based on official Amazon career sources.

## 1) Executive Summary

- Amazon continuously recruits across Operations, Corporate/Tech, AWS, and Hourly roles.
- In Saudi Arabia, current categories include Administrative Support, Fulfillment & Operations Management, Sales & Account Management, and Fulfillment Associate roles.
- In the UAE, active hiring spans Program/Project/Product Management (Non-Tech), Sales & Account Management, and Fulfillment & Operations Management, among others.
- Globally, high-volume hiring persists for Warehouse, Delivery, and Customer Service roles with flexible schedules.

Tip: Always verify the latest postings on [amazon.jobs](https://amazon.jobs) and [hiring.amazon.com](https://hiring.amazon.com); availability changes frequently.

### Global / General — Hourly & High-Volume Roles

- Warehouse & Fulfillment Center Associates — flexible schedules; competitive pay and benefits; fast application process.
- Delivery roles — DSP Delivery Driver and Amazon Flex Delivery Partner opportunities.
- Customer Service Associates — in-office and remote roles in multiple countries with training.

### 3) Typical Requirements by Job Family

#### Operations / Area Manager / Learning

- Bachelor's degree often preferred (or equivalent experience).
- Leadership of hourly associates; ability to work variable shifts (nights/weekends/holidays).
- Ownership of safety, quality, performance KPIs; strong communication and MS Office/Excel skills.

#### IT & Support Engineering / Data Center

- Hands-on technical troubleshooting, ticketing, and on-site support.
- Comfort with 24/7 environments, rotating shifts; ability to lift/cable/manage racks.
- Country-specific eligibility (e.g., Saudi National only for certain roles).

#### Program / Product / Project (Non■Tech)

- Structured problem solving, stakeholder management, and analytics (Excel/SQL/BI).
- Experience driving roadmaps, writing PR/FAQs, and influencing cross■functional teams.

#### Sales, Advertising & Account Management

- Account growth, vendor/category management, promotional planning, and P&L; awareness.
- Data-driven decision making; partner negotiations; strong written & verbal communication.

#### AWS (Solutions Architect, TAM, SDE)

- Cloud fundamentals (compute, storage, networking); architecture and customer engagement.
- Programming or scripting familiarity; certifications (e.g., AWS Solutions Architect) often preferred.
- Bar-raiser interview process; culture of ownership ('builders').

#### Hourly (Warehouse, Delivery, Customer Service)

- Minimum age and local work authorization; shift flexibility.
- Ability to stand/walk and lift up to role-defined limits; customer focus.
- No resume/interview for many warehouse roles; training provided.

#### 4) How to Apply

- For corporate/tech and regional roles (KSA/UAE): search and apply via [amazon.jobs](https://amazon.jobs). Filter by country/city and 'Most recent'. Create a profile and complete the online application.
- For AWS-specific roles: use the AWS Careers portal ([aws.amazon.com/careers](https://aws.amazon.com/careers)) and review 'How we hire'.
- For hourly roles (warehouse, delivery, customer service): use [hiring.amazon.com](https://hiring.amazon.com) for fast application flows and location-based job finders.
- Enable job alerts on [amazon.jobs](https://amazon.jobs) for new postings in your region.
